

### Move, Add, Change (MAC) Orders

Our department makes every attempt to resolve MAC orders in a timely manner. We strongly recommend departments contact one of the recommended partners to assist in larger cabling requests, or to ensure you receive the most cost-effective price.

Please contact the partner directly to request a quote for your cabling project. After scheduling a convenient time for the contractor and yourself to review the cabling request project, please notify your Network Telecommunications Team contact so that one of our staff may walkthrough the project with you and the contractor to ensure University standards are met.

### Recommended Partners:
