College of Health & Human Services  
Three-Year Average, Six-Year Graduation Rates  
(Cohorts: First-Time, Full-Time Baccalaureate Degree-Seeking  

**Graduation Rate:** 30.37% (On the rise, 28.83%, 30.97%, 31.05%)

Excluding students entering with an “Undetermined” major, on average 38% of all first-time, full-time baccalaureate degree-seeking students who earned a baccalaureate degree within six years changed majors at least once.

**Gender**
- Approximately 65% of the enrolled students were females
- Graduated a larger percentage of the females than the males (32% to 27% respectively)

**Age Group**
- Primarily (92-93%) students were below the age of 25 (traditional)
- Graduated more traditional aged students than non-traditional aged students, 32% vs. 10% respectively.

**High School Diploma**
- 93-96% of student enrolled had graduated from high school
- Approximately 32% of those students earned a baccalaureate degree within six years.
- Over the three years covered by this study one of the four students (25%) who presented a GED and one of the three students (33%) who were homeschooled earned a baccalaureate degree within six years.

**High School GPA**
- 52% or more students enrolled reported HS GPAs of 2.51 or higher
- 6-13% submitted no HS GPA information

**ACT Composite Score**
- 48-50% of students submitted ACT Composite scores of 18 or above
- 19-25% did not submit and ACT Composite score
• Although the graduation rates for the College of Health & Human Services in the ACT Composite score ranges of 12 to 17 and 18 to 23 aren’t the highest of all the undergraduate colleges, it is important to note that based on headcount, H&HS graduated more students in these categories.
• 100% of all students submitting ACT Composite scores in the 30 to 36 range earned baccalaureate degrees within six years.

Race/Ethnicity
• 74-78% of students self-identified as being White
• American Indian (3 of 7), Asian (3 or 9), Unknown (27 of 76), and White (350 of 1014) had higher graduation rates than the overall college graduation rate.

Reading & Study Skills Course Recommendation
• 62-69% of students were NOT recommended to enroll in either 1510A or 1510B
• Of those recommended for a Reading & Study Skills course, most were recommended for 1510A. On average, 23% of those students earned a baccalaureate degree within six years compared to 20% of those who were recommended for 1510B.

English Placement Test Results
• 45-57% of students tested into English 1540 or below
• 12-21% of students had no English placement test results
